THE PERSONAL SHIPPER. CALL US BY NAME

Give us your shipments and we entrust you to your personal consultant. Address us for everything, call us by name, we will always make us available for you. We will check your orders, tell you where are your goods and when they will arrive at their destination.

This because in our offices we have a very low turnover and our warehousemen work for us since a long time and know perfectly all the goods that we move and stock.

INTEGRATED LOGISTICS AND WAREHOUSE

Shipments and logistic have a unique soul and they complete each other. Moved from the same passion and with the same care and attention, stock goods in more than 6000 square meters in our warehouses in 20876 Ornago (MB) and 36040 Brendola (VI).

We always pay attention to the technology in order to a vanguard, competitive and safe service. For this reasons our warehouses have TVCC cameras recording 24/24h with dedicated space on shelves to store the most fragile goods.
